MANUFACTURER'S INSTALLATION INSTRUCTIONS

Georgia Manufactured Homes Retailer/Retail Broker Acknowledgment Form

Manufactured Home Procedural and Enforcement Regulation, Section 3282.207, requires that a consumer manual be delivered to the consumer with each new home purchased. Also per the rules and regulations, a signed acknowledgement of receipt of this manual must be signed by the consumer to be kept in the consumer's file and a copy forwarded to this office. Forms maybe printed from our website www.oci.ga.gov. The situation has occurred recently wherein an inspector required the retailer to make certain repairs to the consumers' home because the consumer had not received a homeowner's manual and was not aware of requirements from the manufacturers that would have prevented the resultant damage. Likewise, be aware that Subpart F, 3282.255, requires that the retailer/retail broker MUST complete the information card included in the homeowner's manual and forward it to the manufacturer of that home. This office will be enforcing both of these sections from this point forward.
